

Water Supply

When getting water to a fire, seconds count. The Water Tanker is an essential part of covering Southbury's 40 square miles. With only a percentage of Southbury having hydrant access, the fire department relies on Tankers like the one pictured below to provide mobile water to any location.

Your Donations help our Firefighters:

- Pay For Training
- Purchase the Latest Equipment
- Host Fire Prevention Events
- Recruit New Members

Thank You!
